Introduction to Crypto currency Cloud Mining

POOLS MINER Cloud Mining is a leading platform that allows users to mine crypto currencies without needing expensive hardware or technical expertise.

How It Works

Cloud mining lets you rent mining hardware located in remote data centers. You purchase a contract, and POOLS MINER Cloud Mining allocates the specified hash power from their mining farms to you. Mined crypto currencies are credited to your account based on your share of the hash power.

Referral Earnings

POOLS MINER Cloud Mining offers a referral program. By sharing your unique referral link, you earn a commission when someone you referred buys a mining contract. This commission is a percentage of the contract's value.
